To whom it may concern Uber has provided me with a platform to help me provide and take care of my family. To get rid of Uber will be a disservice to the economy as well as the millions of people who rely on Uber for safe and affordable rides.

When is the Gov't going to stop imposing their will on the public. What ever happened to freedom of choice. All my clients love Uber. Both locals and visitors. We are clean, safe and on time. Not to mention less expensive. We deserve to earn a living also. Try doing something that actually makes a difference.

Save Uber! Much more affordable and accessible than taxis in the Palmetto State.

Subject: Please reinstate the legality of Uber in SC

Dear fellow South Carolinians serving on the SC Public Service Commission,

Please immediately reinstate Uber's right to function here in South Carolina.

I used the Uber service successfully multiple times in multiple cities, so am completely baffled by your decision to require Uber to "cease and desist operations" here in South Carolina.

However well-intentioned your decision was, the result is simply that South Carolinians once again have fewer, affordable and safe choices for transportation – in a state with virtually no functional public transportation system – and you have fueled the nation's deep-seated belief that South Carolinians are backward luddites.

Looking forward to hearing that you have reinstated Uber.

Thank you,
Elizabeth McLendon
